CYBERSECURITY SUMMARY

Entry-level cybersecurity candidate targeting SOC Analyst and Junior Security Analyst roles. Completed Cyber Threat Monitoring Level 1 and Fortinet NSE 1–3. Building hands-on practice in Splunk/SPL triage, Wireshark traffic review, incident reporting, and contained labs. Careful with evidence, limitations, and separating observations from assumptions.

CYBERSECURITY PROJECTS & TRANSFERABLE EXPERIENCE

SELECTED CYBERSECURITY PROJECTS & LABS *2026*

• Splunk BOTS v2 (training dataset) — SPL searches across HTTP, DNS, and Windows telemetry; Tier 1 triage practice; documented evidence, limits, and next checks.
• Wireshark (synthetic captures) — Compared baseline and training traffic; reviewed DNS, FTP, and HTTP.
• OWASP Juice Shop (contained lab) — Used Gobuster and manual HTTP review; documented seven findings.
• GoPhish/MailHog (local simulation) — One test click; zero data submissions.
• Cowrie (Kali VM) — Configured an SSH honeypot; validated host-only connectivity; reviewed logs.
• Transferable experience — Freelance film/media, museum marketing, campus archiving, and live A/V operations; relevant strengths in technical setups, metric analysis, documentation, coordination, and handoffs.
